Hi Danielle,

I sent a message to Dan and since he's a muni guy, I also included two industrial guys. Told them the 20th is preferred but the 19th could work too.

Will let you know when I hear back from them.

Cathy

Sure Cathy – if you are willing to come in on a Monday please offer Dan a choice. I apologize that we don't have more options for him. Let me know what he prefers (I have no preference – Shauna would prefer the 20th).

Hi,

I'm normally off on Mondays but can make a exception this week so I can take Friday off.

Would it be possible to give Dan Kurpaska a choice of the 19th or the 20th? I hate just offering one date to someone that is already so busy. Let me know and I'll contact him today.

Cathy

The 20th works for me. I could rearrange the 19th if I have to (though I think that's a day Cathy would be out anyway).

Thanks!

Thanks guys for checking on your schedules. SMI reached out to let me know that they have scheduled their semi-annual sludge haul for early November. For that reason, later in November works better for them – would November 19 or 20 work for all? I know its Thanksgiving week and people may be traveling.

Thanks!

Hi Danielle,

I am currently available any of those dates.

Shauna and Cathy -

I was hoping to give a few dates to the folks at SMI for a follow-up site visit. The next few weeks are a bit hectic for me, so I was thinking of perhaps Nov 7, 12, 14, or 19. Cathy - I think you are usually out on Mondays so that may not work. Let me know what you think.

Cathy - when we have a few options, I thought you could take the lead on looping Dan Kurpaska in so he can meet us there.

Thanks!

Danielle
